BURN GAS.

The Honolulu Gas Co., Ltd., will reduce the price of its gas on June 1 to a figure that should invite the attention of every household in the city. The economical features of the gas stove are so numerous that they cannot be mentioned in a limited space. One of these is shown in the expense of fuel and another is in the wear and tear on the disposition of the cook. Now that summer is approaching, a cool kitchen is in demand and the best way of securing one is by cooking on a gas stove. Aside from the household use to which a gas stove may be put there is a demand for gas in any establishment where concentrated heat is required. In dressmakers, tailors, laundresses and in factories of all sorts the gas stove is indispensable. The company has show rooms in the Alexander Young building, Bishop street, where all information will be supplied.

OLDEST BANK NOTES.

The oldest bank notes in the world are the "flying money" or convenient money, first issued in China in 1697 B. C. One writer tells us that the ancient Chinese bank notes were in many respects similar to those of the present day, bearing the name of the note, the signature of the official who used it, and its value, in both figures and words. On the top of these notes was the following philosophical injunction: "Produce all you can; spend with economy."—Brooklyn Eagle.

SCHOOL CHILDREN ARE ASKED TO GIVE HELP

As the result of the effort which is being made by the Oahu Central Improvement Club for a "cleaner Honolulu," the Board of Education has issued a letter, a copy of which will be sent to every school in the city, asking the cooperation of both teachers and pupils in both private and public schools in this movement. This work is most strongly urged on the members of the schools and should have an effect noticeable in the near future.

The letter which is being sent out by Superintendent Babbitt is as follows:

To the Teachers and Pupils of the Schools of Honolulu.

A general movement for improving the appearance of the streets of this city has been inaugurated by the Oahu Central Improvement Club and the teachers and pupils in the public and private schools are asked to cooperate in the work.

The unsightliness occasioned by throwing orange peels, banana skins, scraps of paper and other rubbish on the sidewalks, and the menace attached thereto, need no comment. Will you assist by refraining from such practice yourself, by discouraging it in others, and, as far as you can, aid in cleaning up places now untidy in appearance?

A concerted effort on the part of teachers and pupils to this end will have an irresistible influence and the Department urges most strongly your cooperation.

Superintendent of Public Instruction.

GALA TIME AT THE SEASIDE HOTEL TONIGHT

A dance will be given at the Seaside Hotel tonight as a farewell to Captain Clarke and the officers of the U. S. S. Annapolis. The Congressional party will be made especially welcome, and will find many unique features in the naval hop as given in Hawaii. After the close of the entertainment at the Orpheum, the Elleford Company are coming out in a body to enjoy a few dances before the last car. This jolly crowd will unquestionably add greatly to the merriment of the evening. The usual general invitation is extended. The visiting Senators and Congressmen are strongly advised to be in attendance, as the pretty and individual dances at the Seaside are quite different from anything seen elsewhere, and are rapidly obtaining a world-wide reputation.

Visitors to Hawaii

Should read The Hawaiian STAR, a high-class evening newspaper, with the Associated Press Service. The Star is sold at all hotel newsstands, on all trains and street cars. Its news columns contains everything of interest up to press time. Editorials, covering both local and foreign events, can be found in The STAR every day. Read The STAR; you will find it a good paper.
